**PRIVATE AND CONFIDENTIAL**

26 November 2021

Dear Patient

Further to the letter sent to you on 20<sup>th</sup> September, we are pleased to confirm that your relevant medical records and information have now been passed over to New Victoria Hospital for your care to continue with them.

We can also inform you that the specialist team at New Victoria Hospital will be led by Mr Nim Christopher (Consultant Uroandrogist) and will also comprise Prof David Ralph (Consultant Uroandrogist) and Mr Philip Rubin (Consultant Plastic and Reconstructive Surgeon).

Please do not contact New Victoria Hospital directly as the clinical team have begun to review patient records and are focusing on triaging cases on their level of urgency and will be in touch with you once they are ready to discuss the next steps of your care. The team will be seeing patients within the coming weeks and they expect to start surgery by early December, and those patients will be contacted directly by New Victoria Hospital. At this time there is no information on waiting times or individual position on the waiting list.

For all other enquiries contact us on the number or email address below

Yours sincerely

**GDRSS Team**
